Head start on proxies, LUTs,
files
Data wrangling and
organization

What does a DIT do?

Data Wrangling

Backup all media to multiple drives

Perform checksum verification

Ensure all data is what it is supposed to be

Proxies

Generate low-resolution, Rec. 709 versions of media

Sync audio and create timelines

Color

Make LUTs and manage color pipeline

What ELSE does a DIT do?

wait

organize files

dailies

wait

play around in davinci resolve

make luts?

wait

What do I need to know before I DIT?

Expectations

What does the team actually want me to do?
What do I need to deliver by EOD?

Production

What camera and format are we shooting in (codec, raw/log, color space, etc.)
Where is the media going?

Post Production

What software is the editor using?
What is the media file structure?

DIT Toolbox

What do I need to bring with me?

ESSENTIALS

- Computer
- Charger
- Tape + marker
- Adapters and converters (does your computer have a USB-A port still)

ESSENTIALS BUT these were probably provided

- Hard drives (MULTIPLE!)
- Card reader
 - SD card
 - CFast, CFexpress, etc.
- Table & chair with internet connection and outlets

NICE TO HAVE :)

- Some kind of multiport dock
 - USB hub?
- Extra storage
- Every cable you can imagine
- Monitor

DIT Toolbox

SOFTWARE

- Davinci Resolve
- Shotput Pro?

DIT tips & tricks

Know your drives - SSDs vs HDDs

Know your equipment - fast vs slow cables

Know your workflow - premiere vs avid

Come prepared - Bring necessary equipment for YOUR computer and camera! Communicate with your team! Gather as much information as possible!

DIT Cart!!!!!!!!!!

LIVE COLOR GRADING!

FAST 4TB SSDS!!

PROFESSIONAL SOFTWARE!!!

TANGENT PANEL!!!

REFERENCE MONITOR!!!!!!

:D
